

BPA Energy Efficiency Weekly Announcements, October 31, 2013

Events

Brown Bag: Six going on Seven – Draft Results are In! -

Join us on November 4, 12:00pm – 1:00pm. In July, BPA introduced the Six Going on Seven project to utilities ([Details Here](#)). The goal of the project is to collect regional savings achievements from 2010-2012 to facilitate discussion during the development of the Council's 7th Power Plan. Over the past few months, BPA has collected and analyzed this regional data and we are now excited to share the results of this effort with the region... [More](#)

BPA Lighting Calculator 3.0 Webinars -

To support the BPA Lighting Calculator 3.0 released last month, BPA Lighting Team is hosting additional webinars for utilities and trade allies to provide an overview of the new platform and answer questions.

[Trade Ally Lighting Calculator Webinar](#)

November 7th 2013, 12:00pm -1:00pm

The first webinar caters towards a trade ally audience, focusing on the features they will be primarily working with.

[Utility Lighting Calculator Webinar](#)

November 13th 2013, 12:00pm -1:00pm

This webinar will be presented to utilities to get the most out of their lighting calculators.

General

Revisions to the October 1, 2013 Implementation Manual are Now Online -

[Revisions](#) to the October 1, 2013 Implementation Manual are now posted online. As is often the case BPA discovered a number of minor language issues after the release of an IM. These issues have been corrected. Please review Chapter 12 Updates/Revisions for changes that have been made.

Program Updates

Home Depot Launches Fall Heat Pump Water Heater Promo with Rheem -

[Home Depot](#) is the latest retailer to offer a Fall 2013 heat pump water heater promotion. From Nov. 28- Dec. 25, 2013, Home Depot will offer a \$459 instant rebate on Rheem EcoSense 50 gallon heat pump water heater purchases. The promotion is available at all Idaho, Montana, Washington and Oregon Home Depot locations...[More](#)

Special Instructions to Submit an Energy Management Calculator with Negative Savings -

As a reminder, if you need to report High Performance Energy Management or Track and Tune Calculators with negative savings they should be submitted via IS 2.0 as separate invoices. When submitted separately IS 2.0 will automatically will zero out the Performance Payment for negative savings rather than calculate a negative performance payment. There is no need to submit a performance payment calculator.

If HPEM or T & T Calculators with negative savings are submitted as a part of a larger invoice package IS 2.0 will not be able to correctly calculate performance payment. If you have any questions please contact your EER.

Reminders

EE Post-2011 Review Kick off Meeting and Scoping Document Available -

A public meeting to discuss the document and the process forward is scheduled for November 22, 2013 in Portland, Oregon and by web and telephone. Please mark your calendar. The EE Post-2011 scoping document is available for stakeholder review... [More](#)
